A New York man who had been suspected of being the fugitive, was conclusively proven today to have no connection with the case. Three others have been arrested, one from New Orleans, one from Egypt, Pa. and another from Lawrence, Kan All three of these say they are able to prove their identity and innocence of the crime.

It has been found that Katherine Jackson was never divorced from "Kid McCoy" Jackson, of Sturgis, Miss., and was not legally married to Eugene Leroy. It also appears from a story told by Fred Stockmoor, a machinest of this city who formerly worked with Leroy, that the fugitive has a wife and family here. Stockmoor told the police that Leroy informed him he was not married to the woman with whom he lived and he had a family in New York.

Senator Shingler's Resolution Asks Federal Bank to Modify Restrictions

Request that the Federal Reserve ank board modify its action in putting rigid restrictions on the financing of the purchase of autopobiles was provided in a resolu ion introduced in the senate Wednesday by Senator Shingler of the tenth. The resolution has to stay on the table a day before action can be taken on it according to the rules

of the senate. Sensitor Shingler stated that his resolution followed in line with the editorial used in The Constitution of Wednesday. He spoke highly in favor of the editorial and stated that his resolution should result in steps being taken to remedy this restriction of credit on automobile purchases. The senator declared

steps being taken to remedy this restriction of credit on automobile purchases. The senator declared that he intends using extracts from the editorial in speaking for his resolution when it comes up for passage Thursday.

The resolution is as follows:

"Whereas, the action of the authorities of the Federal Reserve bank as to the financing of the purchase of automobiles and motor trucks will be very detrimental to the best interest of all classes of industry, especially to the farmers of this state, therefore, be it resolved by the senate, the house concurring, that we respectfully request the federal reserve board to consider, resoind or modify its action in the interest and for the welfare of the people of the state of Georgia." o'clock, a bill by Senator Brooks, of the 47th, decreasing the length of the senate voted to disagree to the report of the committee which was favorable to the passage of the bill. Senators Kendall and Elders spoke in favor of the measure, declaring that as the result of the present fifty-day sessions the time of the members and the money of the state is being wasted, as all of the business could be completed easily within thirty days.

When adjournment came at 1 o'colck, a bill by Senator Brooks, of the thirteenth, which seeks to increase confederate pensions, was being discussed. An annual increase of \$25 is provided on all pensions of \$25 is provided on all pension

STRESSED BY CANDLER

Bishop States He Is Opposed to Intercollegiate Athletics on Account of Cost.

Needs of Emory college were par-icularly stressed by Bishop Warren on Financing Car Pur- A. Candler, chancellor of the university, in the principal address of versity, in the principal address of the sixth founders' day of Emory university, in Atlanta, which was observed yesterday impressively with exercises held in the chapel of the college. A number of ad-dresses comprised the speaking pro-gram, which began at 10 o'clock. The attendance was about four hun-dred.

The attendance was about four hundred.

After the morning program, which consisted of a number of speeches, principally by Bishop W. N. Ainsworth and President K. G. Matheson, of Georgia Tech, a luncheon was served. The exercises were resumed in the afternoon with the laymen making most of the talks. The campus and buildings were inspected by the group of visitors.

Bishop Candler sketched the need of new buildings for the university, stating that approximately \$500.000 would be sufficient to erect the buildings immediately needed. A teachers' college, two dormitories, a gymnasium and a library were what the college needs most, according to Bishop Candler.

His stand on intercollegiate athleties was also outlined and he reiterated that he was against intercollegiate athleties for the reason that the expense that this would entail would vitally conflict with the erection of the new buildings which are preently required by the university.

Dr. Ainsworth followed and ap-

the erection of the new buildings which are urgently required by the university.

Dr. Ainsworth followed and appealed for Christian influence in educational institutions. This was also the theme of Bishop Candler's address. Dr. Ainsworth paid a glowing tribute to the work of Bishop Candler. Dr. Matheson speke along the same lines and emphasized the need for Christian men in educational work.

Some of the best known laymen in attendance were: Asa G. Candler. W. R. O'Dell, of Concord, N. G.; Carl H. Ireland, of Greensboro, N. C.; C. Featherstone, of Greenwood, S. C.; G. A. Neuffer, of Abbeville, S. C.; J. A. Ellison, of Huntsville, Ala.; Dr. J. A. Fraser, of Alabama; Bruce Beveridge, of Selma, Ala.; Dr. G. B. Van Arsdale, of Harrisburg, Ky.; R. C. Neely, of Jonesboro, and others.

Charles E. Davis, former Rome lawyer, must serve the ten years in the penitentiary given him in Fulton superior court for forging the name of the late Chief Justice Logan E. Bleckley to a deed. So the court of appeals decided yesterday when it refused to give him a new trial.

Davis and H. D. Leon were jointly indicted for the forgery of the Bleckley deed which was signed No. The evidence showed that Davis and Leon with the forged deed in the rossense of the critical standard for the forged deed in their possession, sold the land to S. D. Anderson, of Nichols, Ga., for \$1,000. In addition to the forged deed from Judge Bleckley, there was a chain of title offered, most to the fictilitius persons.

Leon turned state's evidence in the trial in Judge Humphries' court of the granters in which appeared to be fictilitius persons.

Leon turned state's evidence in the signature thereto at the instance of and in the prosence of bavis. He said that Davis had promised to divide with him on the stance of and in the prosence of bavis. He said that Davis had promised to divide with him on the stance of and in the prosence of pavis, the stance of and in the prosence of pavis, the stance of and in the prosence of the paving was laid, but have been delayed on account of my men being brownised to divide with him on the deal, but the evidence showed that and he served a year in the federal penitentiary. He was also convicted of fradulent land deals in Cobb county, but the appellate court reversed the case and he escaped punishment.

PLANS FOR VISITORS

Adventurous Service Afforded by the Army And Naval Stations

"For service in Germany," 1,000 mest are needed by the local recruiting station, according to a telegram from Adjutant General Harris received by Major B. M. Balley, recruiting officer Wednesday, and enlistment for this service was immediately opened.

Officials were unable to supplement the information given in the telegram, which was devoted to the kind of men wanted and their qualifications, and no statement was made as to what the hature of the German assignment will be. Officials believe, however, that the opportunity to see Europe and Germany at this time will be a popular one, and they have telegraphed substations to institute at once a drive to secure the enlistments desired.

drive to secure the enlistments desired.

According to Adjutant General Harris' telegram, the men are wanted for infantry, cavalry and field artillery, and a number of specialists are also desired.

Another chance to see adventurous service was afforded Wednesday when Lieutenant R. H. Booth, naved recruiting officer, was informed that former service men are wanted to man six brand-new navy destroyers to be stationed in northern and southern European waters.

The new destroyers are the Brooks, Kane, Kilmer, Hemphreys, Fox and Overton, and are fitted out with all conveniences for seamen. Lieutenant Booth urges instant application by those who desire to ship aboard one of these splendid ship aboard one of these splendid

Returning to Atlanta after a trip made to the several towns to be vis-ited by the Arkansas delegation of farmers and business men during the first week in August, Director farmers and business men during the first week in August, Director J. M. Harper, of the southern soil improvement committee, is elated over the plans which have been perfected for the entertainment and instruction of these visitors while in this section. In company with D. C. Welty, of Little Rock, Mr. Harper visited Americus and Athens, Greenville, Florence and Bennettsville, S. C. and Wilson, N. C. At Americus, the chamber of commerce, with the assistance of leading farmers and business men in Sumpter county, plan to take the delegation in automobiles over some of the fine farm lands adjacent to the city. Luncheon will be served at midday. In the evening a banquet will be tendered when speakers representing the city and county will point out interesting facts about this section of Georgia. At Athens, the entertainment will be tendered by the chamber of commerce and the State Colloge of Agriculture. The experimental—work of the college is in good shape and will give some valuable lessons in methods of handling crops and soils, particularly the use of fertilizers for increased crop production. A large number of fine farms near Athens will be visited during the day.

MURDER CLIPPINGS CAUSE THE ARREST OF ATLANTA NEGRO

The finding of several clippings from Atlanta newspapers concerning the murder of people in Georgia in possession of Harry Gray, negro now under arrest at Louisville, Ky., has led to a rigid investigation into the negro's record by the Atlanta police department and officials of the state. Gray is believed to be Ed Green, former negro employee of the Southern railway, of 186 West Mitchell street.

The news articles found in the engro's pockets related to the murder of Bert Hooper and his wife at Clayton, Ga., by unknown parties and also to the killing of the soothsayer, Marty Wells. at the last international live stock show by winning grand champion-ships.

"The organization formed as a result of the meeting," Mr. O'Connell states, "is pledged to greatly increase the production of hogs in the southeastern states, and the stimulation thus given to Poland China breeding is bound to bring breeders of other types into greater activity and to eventually make this section a formidable rival of the corn belt' in pork production. The opportunity for the expansion of the hog industry at this time comes from a shortage of production in the middle west and the loss of thousands of brood sows there through malignant and infectious disease, coupled with the discovery that hogs can be finished for the market on certain pasture and leguninous crops in the south equally as well as on the grain of the middle west.

"The intensive program adopted by the Poland China association in Atlanta forecasts an increase in hog production within the next year or two greater than the total production throughout the five states represented in the association during the past decade."

Will Refuse to Co-operate if Terms Are Imposed on Moslems.

New York, July 28.—The Indian information bureau here today made public a communication which made public a communication which it says has been sent by the central Khajifat committee of India to the Viceroy, protesting against the Turkish peace treaty and declaring that a program of non-cooperation with the government of India would be adopted should the treaty be im-

with the government of India would be adopted should the treaty be imposed as at present drawn.

The communication says in part: "We have no desire to uphold any misrule such as has been attributed to Turkey. Our delegates in Europe have asked for an independent commission of inquiry to investigate the charge of wanton cruelty said to have been practiced by the Turkish roldiers in Armenia. We can not look with indifference upon the partition of Turkey and her empire for the sake of punishing or humiliating her. We claim to be as loyal subjects of the British crown as any in India. But we consider our oyalty to an earthly sovereign to be subservient to our loyalty to Islam. The latter enjoins upon every Mosem to consider those who wantonly injure the states of the Khalifat to be enemies of Islam and to resist with arms if necessary.

"We recognize that even if we had the power, we must not resort to arms as long as any other means are at our disposal. We feel that the least a Moslem can do in these circumstances is not to assist those who are guilty of trying to reduce the Khalifat practically to nothingness. It would, therefore, become our painful duty to refuse co-operation with a government which accepts the peace terms and advises

"An' the good man would say to us, 'Go home, you are too young to marry. An' the two of us jiggin', at the weddin' feast. Wurra, wurra." The old lady laughed until the tears ran down her cheeks.

"It's a nice thing to'think about of a sunshiny afternoon, anyway," she chuckled.

The Milk Case.

An effort was made to have Dr. Claude Smith, former city bacteriologist of Atlanta, to testify regarding the charge that Dr. Bahnsen had been fined for selling impure and adulterated milk here, but Dr. Smith's testimony was postponed pending the introduction of testimony from the city heatth office of Macon, where it was charged that Dr. Bahnsen had suffered the revocation of his dairy license. The city health officer of Macon has been summoned.

Several witnesses, among whom were Robert F. Shedden, of, Atlanta; T. F. Burnes, of Washington, Ga.; J. D. Weaver, of Dawson; W. H. Watts, of Thomasville, and H. A. Petty, of Dawson, a stock-raiser, were examined in an effort on the part of the prosecution to show that Dr. Bahnsen had been remiss in his duty in protecting cattle-raisers from loss, and discouraging cattle-breeding in the state because of the lax methods of the state veterinarian's office.

The committee adjourned at 6 o'clock to meet again this afternoon at 3 o'clock.

Urges Production Of the Baby Beef For Better Supply

THE CONSTITUTION, ATLANTA, CAL THURSDAY, JULY 25, 40

BY DR. CHARLES W. McCAMPRELL, Professor of Animal Rusbindry, Kanna-State Agricultural College. (Written for the United Rewn.) Manhattan, Kanz., July 28.—A more general practice of producing

and fattening baby beef will in crease the gross beef supply of the untry and add to the profit of the attle producer and feeder. A baby beef is a steer or helfer that is fat and ready for the market at the age of 12 to 14 months velghing from 750 to 900 pounds.

A baby beef grazes one season and that only as a calf while he is suckling his mo If he were carried over and marketed off of grass as a 3-year-old as is so often done, he replaces a cow that might have been producing a baby beef each of the 3 seasons this steer was grazing beyond the age of a baby beef.

The average 3-year-old steer représents a gross selling weight of less than 1200 pounds. The s baby seeves that might have been produced by the cow he replaced dur developing a gross weight of 1200 pounds would represent a gross selling weight of 2400 pounds of

Baby beef production not only increases the beef supply, it also reduces beef production costs. Last year the Kansas experiment station fed a group of calves exactly the same ration. This ration consisted of corn, linseed oil meal, alfalfa hay and silage. It required 35 per cen less roughage to produce gain on the calves than it did on the big steers, and the calves marketed as baby beeves showed a net return of \$37 a head more than the big steeds.

"In addition to this case there is the action of the Pennsylvania railroad in laying off approximately 12,000 men, if reports are accurate. Will this help move freight? Will it help give the nation that increased production of which it stands in real need?

"Or is the laying off of workers a revival of that old and crude policy of laying off men during a political campaign for the purpose of driving them in fright and necessity into a political camp?

"In addition to the laying off of men there have been reports of efforts to decrease wages. It will be recalled that in 1907 and 1908 employers sought to reduce wages, the ployers sought to reduce wages, the result of which at that time would have been to produce a panic.

Governor Cox today received Mr. Christensen's second telegram and said he would reply, but not until he finished drafting his address accepting the democratic nomination, probably late this week. It is expected generally here that Governor Cox will decline to act in Mr. Debs' behalf. He has received papers from Wash-

He has received papers from Washington in the Debs case.

The governor today put in a full day on Aris address and planned to work until midnight, as he did yesterday. He dictated to his secretary all day except for a brief-time taken by a few visitors. Several installments were sent to be printed. The governor said he was making rapid progress and also condensing successfully.

One of the most important parts of his address, the governor said, will be held up for telegraphic transmission on August 7, notification day, instead of being contained in the remainder of the address mailed to hewspapers. The governor said the insert would be brief, but prominent. He would give no inkling of its subject.

Governor Cox today had a conference on educational affairs with Mrs. Cora. Wilson Stewart, of Kentucky, prominent for work done in the Kentucky mountains to stamp out illiteracy. She seconded Governor Cox's nomination at San with a "small group of pickets"

MILLER IS NOMINATED BY N. Y. REPUBLICANS

Selected for Governor or Third Ballot at Saratoga Springs.

Saratoga Springs, N. Y., July 28.
A complete state ticket, headed by Nathan L. Miller, of Syracuse, as the candidate for governor, was recommended to the enrolled republican by the unofficial republican state convention here today.
The convention also voted by an overwhelming majority to support United States Senator James W. Wadsworth, Jr., in his fight for the nomination to succeed himself.
A hard-fought contest for the gubernatorial nomination was ended with victory for Judge Miller on the third ballot. By vote of the convention the nomination was made unanimous, but Secretary of State Francis M. Hugo, the victor's most formidable opponent in an original statement, made public after adjournment, declared he would carry his fight into the September, primaries.

Approximately 200 laymen and preachers assembled at Emory university yesterday in honor of the founding of the university.

At 10 o'clock the visitors gathered in the theology chapel, where addresses were made by Bishop Cardiler, Bishop Ainsworth and Dr. K. G. Matheson, of Georgia Tech. A barbecue was served at the dinner hour in the temporary dinging half for the visitors, faculty and students.

A short meeting was held in the afternoon, at which time talks were made by Asa G. Candler, Dr. J. A. Sharp, headmaster of Emory University academy: C. S. Hodges, of Cyrene, and others.

SPECIAL MEETING HELD TO PROTEST BLOCKING OF ROAD

Mapleton, Ga., July 28.—A meeting of over fifty leading citizens of the second section of Cobb county was held at Harmony church last night to protest against the continued blocking of the Bank Head highway over Knickerjack creek. For over six months the farmers allege that the bridge has not been properly repaired, and the closing of the road has caused them great financial loss and inconvenience.

A committee was appointed last night, consisting of W. W. Cape chairman; Harry Dodd, secretary, and resolutions passed asking for immediate relief.

Speeches were made by F. A. Moon, S. H. Keheley, G. I. Pittman L. B. Howell and others.

The farmers will meet again to consider results and other action will be taken, if necessary, it is stated.

SIXTY days ago we had no intention of holding an August Furniture Sale. Northern manufacturers were behind on their orders. Railroads were congested and shipments of furniture were tied up for weeks. Our stock on the Fourth Floor was getting alarmingly low.

But now the situation has improved. Furniture manufacturers are spurring up production. Freight shipments are moving. We've gotten in lots of furniture on orders placed at the lower prices of six months and a year ago. Still more's on the way! Our selling floor is well filled. So is our warehouse.

While we could cancel some of our back orders on furniture, we're not going to. It was bought right. We're going to have it shipped in. And we're going to turn the situation to the advantage of our patrons by offering thousands of dollars' worth of this high-grade furniture in the August Furniture Sale at

HYPOCRISY-OR COWARDICE?

In his address at Northampton, formally accepting the republican mination for the vice presidency, his party's platform and after the nanner of his chief on the ticket, exposes the hypocrisy of the republican party in the matter of the league of nations.

"Our party." he declared, "approves the principle of agreement took control of the institution, Janamong nations to preserve peace, and pledges itself to the making of such an agreement, preserving that are highly commendable. American independence and rights. as will meet every duty America owes to humanity."

This is only another way of saying that Governor Coolidge and his party dare not openly express approval of the principle of a league, the construction of cottages in ornor disapproval of the principle of der that the management may be an "agreement" of nations "to pre- able to segregate the inmates—the ve peace," etc.

Among men or nations of honor ymous terms, so far a implied igations go; so there is really at expressed in the democratic

The "agreement among nations" favored by Coolidge, as he expressvolved is concerned, is not different from a "league" of nations "to preserve peace . . . and American indopendence and rights," and such as will "meet every duty Americs owes to humanity" and this is the very heart and substance of the league of nations covenant that, for political and personal reasons alone Coolidge's own partisans and a few Wilson-haters and democratic irreconcilables trampled under feet in the United

States senate! "The proposed league of nations, said the candidate for the vice presidency, "met with deserved opposition from republican senators."

Why "deserved," since the republican party, as Coolidge says, "approves the principle" upon which the league is predicated and which embodies the sum and substance

Conspicuous at the ceremonies to which the Coolidge speech was incidental was Senator Henry Cabot Lodge, who was, up to the meeting of the Versailles conference, one of the most outspoken champions of the league of nations principle; and who stultified himself when he led in the defeat of the treaty for no other reason under the sun than to "get even" with the president!

If Governor Coolidge had been delivering a stump speech in behalf of the democratic ticket in this campaign he could not have more accurately expressed the position of the democratic party on the ague of nations issue.

What he said the republican rty favors is precisely what is oken in the democratic platform, and what was supported by democrats of the senate and diated by the republicans and few others in the senate who willed the treaty.

Such a league as he says he wants-only he calls it an "agreeent among nations"-is in exact cord with the democratic party's orm demand.

The republican nominer for vice resident has made a splendid exre of either the hypocrisy, or he cowardice, of his party.

On July 22, Colonel George alley wrote on his political calen-Only 104 days until the

GOOD BOYS FOR BAD.

Since the management of the Georgia Training School for Boys, at Milledgeville, was put under the control of a board of managers appointed by the governor, by an act of the 1919 legislative session, remarkable progress has been made in the direction of improvements. both in a physical and in a moral and human sense.

The purpose of the board managers, of which Colonel F. J. Paxon, of Atlanta, is chairman, is stated comprehensively by Mrs. Orian W. Manson, secretary-treasurer of the board, in a foreward prefacing the chairman's first annual report to the governor and the general assembly:

"To train a 'delinquent' or 'ne boy to make a good citizen; to teach him honesty, truthfulness, obedience, thoroughness in work, good manners, and cleanliness in body and mind; to teach him a trade so that he will be an asset instead of a liability to the state to give him the education prescribe the youth of Georgia through course of study arranged by state educational authorities Through text-book, practice and example, to teach him to reveren laws of his community, country and his God, and to regard the this life and the great eternity to The policy of the new manage

ment is not to conduct the train ing school merely as an institution of punishment for crimes and delinquencies of which its youthful inmates have been convicted, but to make it a school in fact, one in which to build character-in which, in other words, to make good boys of bad-and to set a high standard of morals and high ideals of citizenship before those Sovernor Coolidge, in keeping with of its inmates who are not wilful wrong-doers, but whose plight is attributable to circumstances and surroundings over which they had no control.

In giving an account of the policies invoked by the board since it uary 1, 1920, Chairman Paxon makes reference to many reforms

The board makes an appeal to the legislature for a moderate appropriation with which to make certain essential additions to the school's facilities and equipment. A small amount is needed for good from the vicious, etc. And the chairman speaks a burning ague" and "agreement" are sy- truth when he says in his report that-

"To house these boys together, material difference between the irrespective of crime, character, material difference between the irrespective of crime, character, mentality and habits, is a crime which our state is committing, and heinous one.

> This is an institution that means much to ine state. To its inmates it is the "University of Another Chance," and it deserves the liberal support of the general assembly, for, as John L. Herring, chairman of the budget committee and a member of the board of managers, inquires in his report to Chairman Paxon, "how can we run the institution unless the state backs us and gives us the necessary financial support?"

Governor Wellborn Says Banks' Policy Is Misunderstood and Exaggerated

Governor M. B. Weilborh, of the Federal Reserve bank of this district, said yesterday with reference to the general discussion now going off concerning what is assumed to be the policy of the bank to restrict automobile credits:

"Our position as regards the matter of automobile credits has been entirely misunderstood and grossly exaggerated.

"The Federal Reserve bank of this district has announced no policy of restriction against automobile credits for tractors, trucks and for cars used for business purposes, such as cars intended for farm use.

"No one has taken a more promounced position than I have in urging the extension of every possible facility to the farmer that adds to the comfort and the convenience of farm life.

"The only statement that has been made by this bank on this subject was that made by me and published about two months ago. I am quite sure that those who are criticising what is unjustly assumed to be the proad policy of this bank to restrict all automobile credits are not aware of the contents of the statement made by the contents of the statement made by me in May.

"In order that the position of the bank may be understood, I am asking been published in May is as follows:

TRETH, TONSILS AND HEART—S.

HAVING SOME OF THEM OUT.

When I dwell on the ease with which disease germs are conveyed in the blood stream from infected teeth or gums or tonsils directly to the lining of the heart, and the insidiousness of the damaging inflammation they set up there, with the permanent valvular leakage which often, not always, follows, I do not mean to suggest that heart disease or valvular leakage thus produced is a hopeless matter or that it is always a permanent condition. A considerable number of such cases proceed to complete recovery in time, so that the heart is as competent as a heart may be. Often the question arises, when a patient has one or more teeth known to be infected at the roots, or one or more tonsils known to be infected at the roots, or one or more tonsils known to be infected or diseased (not just enlarged), whether it is advisable to have them out, whether an incipient heart disease dependent on such septic focus or foci is likely to be benefited by removal of the focus or foci, or whether it is safe for the patient with established EETH, TONSILS AND HEARTfocus or foci, or whether it is safe for the patient with established heart disease to have the tonsils re-moved or a number of teeth ex-tracted.

Well, anybody knows whether the infected teeth or the infected toninfected teeth or the infected tonsils are actually causing the heart
trouble—or the joint trouble or
whatever the systemic condition may
be. It is strictly a question of the
physician's opinion, and not susceptible of any proof, save that of
the therapeutic test. Remove the
teeth or the tonsils, and see whether improvement follows; or, if you
are not sport enough to do that,
then keep your ill teeth and tonsils
and let nature do his worst. He'll
do it, the old charlatan.

Some there be, crabs, cranks, anti-medical folks, misanthropists, anti-medical folks, misantiropists, superstitious and ignorant people who profess to believe that one is likely to suffer some evil consequence of removal of the tonsils. The tonsils probably serve a useful purpose in helping the young child to resist respiratory infections; but once they are themselves infected, they become rather a member and can no longer be considered. ace and can no longer be considered useful to a child. And all yarns of the old women to the contrary notwithstanding, removal of the tonsits does not in any way injure man or woman, infant or adolescent.

New York, July 28.—The requirements for the stage are becoming more and more exacting. Not only must the aspirant have a knowledge of languages, but of proper dress of the Keith circuit. But between acts at a theater the other night the audience heard Charles M. Schwab give a hearty series of laughs. A gentleman with him asked him if he had ever heard the story of the fection known to exist about the condemned teeth. It should be put up to the patient in this way, and then left for the dentist and patient to decide which teeth to sacrifice and which to try to save by appropriate dental treatment.

CARE!

The office boy who wants some day to be president of the concern he works for must begin by caring—caring whether or not he does every little thing in the best way of which he is capable.

The artist must care if he wants to become great—for art is something more than the mere mixing of pigments. It is the application of one's soul in feeling to the running combinations of color that make up the final masterplecs.

You have to care, if you want to go ahead. You have to care, as you climb, if you expect to reach the top. You have to care, as you climb, if you expect to reach the top. You have to care, as you will learn that it paid to go through these things. People will gather around you and praise you and send you bouquets and nominate you for offices and wish you well in everything.

But nobody outside yourself will know what it all cost. And that very cost will mean more to you, in inside appreciation, than all the plaudits of the world could ever mean.

Care!

Big people always care. Edison, working far into the night, night after night, piling up hundreds of experiments, with his storage battery, that were failures—Edison had to care, because he knew that there was an end to the road he was traveling, and that at the end of that road he would find his soal. Which he did.

Those who undertake tasks which look far beyond their abilities, have to care.

of his resolution.

The Arnold Bill.

The passage of the Arnold bill providing for a referendum to the people to determine whether or not the state shall levy taxes upon incomes, occupations, privileges and inheritances, is an important piece of legislation, and although it won by a bare majority on one vots, the author of the measure has been congratulated upon what is termed a great victory and one that lays the foundation for a constructive tax law that will greatly benefit the state.

The Arnold bill was a substitute for other measures that looked also to the segregation and classifying property for taxation, and the substitute was amended by the author by striking the word "occupations" from the bill. This, he explained, was done in order to placate Representative Johnson, of Bartow, who declared that the bill would result in levying another tax on farmers. An amendment by Judge Davis, of Oglethorpe, exempting from income tax all incomes derived from property paying ad volorem tax, was voted down by an overwhelming majority.

During the debate on the measure, Representative Arnold of Clay made the statement that Mr. Johnson of Bartow had promised to vote for the bill if the word "occupation" was stricken by amendment, but this was denied by Mr. Johnson, Mr. Arnold, however, relterated his statement.

to the present status of the school and its faculty follows:

1. The granting of this appropriation means the very life of Tech. Fully 50 per cent of the requests which are now being made of the legislature by other state institutions are for expansion. Tech is not asking for a cent for expansion: she is asking the legislature for life.

2. Tech is paying her instructors \$1,500 a year. Harvard is paying her instructors just out of college \$2,750 per year. Because of inadequate salaries there is great unrest in Tech's faculty. Forty realgnations have been received this year, and it is impossible

for next year than at any corresponding date in the past. 4. In 1915 Tech had 714 regular students, and was at that time having difficulty to make both ends meet with an appropriation of \$100,000. Last year Tech had 1,745 regular students, with a total enrollment of 2,209, and with the value of the dollar cut in two, had an appropriation of \$125,000. 5. Next session, unless Tech is to open the fall term with a small and wholly inadequate teaching force, she must have a payroll of not less than \$297,000. The new appropriation added to what she now has will make a total of but \$250,000. It is hoped the difference of \$47,000 will be made up by the tuition fees. 6. The state has approximately \$000,000 net increase in income and is in position to take care of Tech's imperative need. 7. Remember Tech is not asking the legislature to give her funds for expansion, but funds to preserve her life. DEMOCRAT WINS BY THE SUPPORT OF REPUBLICAN

THREE ARE SHOT BY SAME BULLET FIRED BY OFFICER

Three negroes were shot Wednesday night by City Detective Brown, while the officer was effecting the arrest of Tom Hardin, negro, an alleged thief, living on Butler street. The officer was forced to fire at the negro, who atempted to draw a gun as the offiger approached.

The negro sidestepped and the bullet hit a negro man who was standing near by, going through his thigh, striking a negro woman in the ankle, then bouncing from there to a foot of a negro boy where it lodged. Hardin was arrested and the other three negroes carried to the Grady hospital.

Besides these, friends of the governor in the legislature and out of it have crowded the reception room of the executive office to see him in regard to his making the race. A petition signed by 150 voters of Liberty county declared that the signers were greatly disappointed in Senator Smith and wanted Dorsey.

There is every evidence that should the governor enter the race his candidace will be met with a wave of enthusiasm that will go on with increasing force until the day of the primary. This was indicated by the ovation which was given the governor when he entered the hall of the house of representatives Tuesday to accept the new flag which the Atlanta chapter of the U.D. C. had presented to the state. Not only members of the legislature but practically every person in the gallery rose to greet him and there was no doubt of the spontaneity of the demonstration.

CRACKERS DEFEATED BY VOLS

BY CLIFF WHEATLEY.

t took Thomas Sheehan, the "old rater," eleven innings to uncork ld pitch yesterday afternoon ace delivered, it was a perfect and a Vol runner ambled across pan with the marker that gave in the decision. The Crackers ld have won the game many but there's no use in squallover the overturned milk pail, upset on this occasion resulted the defeat of the Frankmen by 5-to-4 score, the battle going grough eleven frames. In asserting that the locals should

won the game many times, we not desire to leave the impres-n that the Vols scored upon evy opportunity that came their by. Distinctly to the contrary, the way. Distinctly to the contrary, the ashvillans were cheated of sevial chances to break the knot by the fast fielding of the Frank hirelings. Especially in this connection do we recall the events that nilled the multitude in the eighth uning. The Crackers were saved the by the grace of goodness, Fred nith cutting off Roy Ellam as he re for the home station with the inning run. A double play was empleted when "Chick" Knauppers nipped off second in a chase. Illam had started the damage with terrible double to left, reaching hird when Martin bobbled Wingo's shrow to the infield.

Used Two Pitchers.

Used Two Pitchers.

Manager Ellam, of the Vols, used pitchers against the Crackers, lefs, the last selection, proving od enough in the pinches to earn decision over our Mr. Sheehan, llam started with Lasley, a recruit outhpaw, who mounted the rubber ith nothing more than his glove. We recall correctly, this was the entleman's second start in the outhern league, the initial one lasting just so long as it took Ellam have a successor warmed for acon. His procedure was very much ong the same lines yesterday, sme one toid Roy that the Cracks couldn't hit left-handers, and set of that dope was correct—pitd against a first rate side-wheeler, the Frankmen have a big job between them but we don't believe Mr. Used Two Pitchers. ines yesterday.

Interview of that dope was correct—pitted against a first rate side-wheeler, the Frankmen have a big job become them, but we don't believe Mr.

Lasley can be carried under that definition at this writing.

Anyway, the newcomer tarried for only a short while before the Atlantans. He started fairly well, retiring Jack Martin on an infield grounder. From that point on, he was hit with everything but the lagrople by the blood-thirsty Frankmen, and sought cover after the forgians had rushed three runers across the pan. Third and secd bases were occupied when Meis s given the magic signal to aster the burden, and he whiffed aggregate the burden, and he whiff

Tom Had Little.
Thomas had little of the stuff that as made of him the class of the suthern league. Tom has done his southern league. Tom has done his full share in carrying the Frankmen to the front, and there are many of the "wise ones" who will declare that the "marster" has borne more than his portion of the task. To that do they attribute the fact that Sheehan has been defeated in three of his last four starts. Regardless of the cause, Tom wasn't himself against the Volsyesterday afternoon, and he was defeated because he was outpitched by Mels.

The game was replete with many fielding features. Sammy Mayer turning in the prettiest of the iot, a long running catch of Chick Knaupp's drive to left center. Ballenger was on second at the time, but, was caught in the completing out of a double play when Mayer whipped to Martin. Wingo's great throw from deep left center killed Newell at third after he had doubled. It was one of the longest tosses ever recorded at Poncey, and the runner was nabbed by several feet, it was a legitimate triple, and the fact that Newell was not held back by the coach on the third line is further proof that nothing but Wingo's wing saved the score from becoming tied.

Charlie- High, Red Wingo and Newell led in the stick work for the afternoon, Newell showing a perfect score on his three trips to the platter. Wingo included a triple in his collection of a pair of bingles, the ball' splitting the center of the space between Burke and Dunning. Brown's triple in the seventh with two men on gave the Volunteers the counters that evened the score, the runs in the first inning resulting from three well timed singles and a sacrifice hit.

The Vols drew first blood, Roy Bliam leading off with a clean single to center field. Ballenger heat out a hit to Damrau, and the Vol pilet drew up at second; Chick Knaupp laid down a sacrifice bunt, and both runners advanced a notch; Dunning hit to High at the base of the right field bank, and Eliam scored, Ballenger moving to the hot corner; Burke beat out a hit down the third base line and Ballenger scorad; Burke died in an effort to steal second.

American Poloists Wallop Belgians In Olympic Meet

Ostend, Belgium, July 28.-The American polo team defeated the Belgians, 13 to 3, in the Olympic Belgians, 13 to 3, in the Olympic contests today, rolling up a bigger score than the British team did against the Belgians Monday when the score was 8 to 3. The Belgians rode hard, but were decidedly outplayed in team work. The mallet skill of the Americans was much improved over that in the Sunday game against Spain, despite mediocre mounts.

game against Spain, despite mediocre mounts.

The line-up of the American was as follows: No. 1, Captain Arthur Harrie; No. 2, Captain Terry Allen; No. 3, Colonel John C. Montgomery; Colonel Nelson E. Margett, back.

The game between the British and Spanish teams has been postponed until Saturday. Today's contest was played in fine weather with a big attendance.

Birmingham, July 28.—In one of the prettiest pitchers' duels staged here this season, Birmingham defeated Memphis 2 to 0. Morrison had slightly the edge on Goodbred, allowing, only three hits, one of them a scratch, Goodbred gave up to seven hits, three of them clean two-baxeers. Morrison did not allow a hit until the sixth inning, when two were bunched off him. A fast play by Stevenson shut off a run at the plate and ended the Chick rally.

Will Battle Tonight

SAMMY MORRIS

BERNIE HAHN

On the left, gentlemen, we have Sammy Morris, Walk Miller's startling little battler, who will fight Bernie Hahn, the boy on the right, to a ten-round decision affair tonight at the auditorium. The scrappers are evenly matched in weight, height and reach, but Bernie has the edge in experience. Both boys are in superb condition and the struggle is certain to be a masterful one. Tickets have been on sale for several days. Good preliminaries will precede the main event, the first engagement slated to begin at 8:39-o'clock. J. Hume McDonald will referee the Morris-Hahn headliner.

Tragesser.

New York, July 28.—New York won a fourteen-inning game from St. Louis today, 6 to 5. The winning run was scored by Burns, who singled, went to second on Bancroft's sacrifice and completed the circuit off Young's hit to center. The Cardinals drove Douglas from the box in the seventh, scoring three runs. In the Giants' half of the latter inning Burnes and Bancroft were passed and scored on Frisch's triple. Relly's single sent Frisch over with the tying run. Toney pitched only half the last inning, and gets credit for the victory.

Johnsard has improved more than any other catcher in the Southern league, and the scribes who voted him only mediore at the start of the season, are joining in the chorus that is proclaiming him one of the best in the league just now. Separation from his twin brother—who was his running mate in the only twin battery in organized base-bal.—hasn't hurt the boy a bit, and he continues to set the works on fire in a Nashville uniform, while his brother is lobbing fast ones over for Kid Elberfeld and his Little Rock Travelers.

Chokes Off Vol Scoring.

Only the fastest kind of fielding prevented the Vols from scoring in the eighth inning, after Roy Ellam had doubled, reaching third when Jack Martin committed a bobble on Wingo's peg to the infield. One out had been registered against the Vols when Chick Khaupp rapped a wicked clout in Fred Smith's direction. Pacer Makes Mark in Mile

Columbus, Ohio. July 28 .- One world's record was reduced here this afternoon, when Rifle Grenade, the champion 3-year-old racing gelding while winning the American Association Trotting Horse Breeders' purse, of \$2,500 for 3year-olds, paced the second heat in 2:04%, lowering his own world's record a second an da half. but he tired badly coming home and finished fourth. Symbol 8. Forrest was the original favorite, selling for \$100 to \$30 for the field.

The 2:07 pace was won by Ethel Chimes after she dropped the first heat to Drift Patch. This gave Murphy two victories for the day.

The final race, the 2:12 pace, had Prosser as the auction favorite. He was in a spill in the first heat with Joe McKay and both horses were placed on account of the unavoidable accident. Mr. Geers, behind Prosser, went down when Joe McKay tramped into his sulky wheel, but he was not injured. Prosser did not do well and failed to go on and win for his backers. Senator Wilkes won the race after losing the first heat to Baron Russell.

World's Title Goes In Olympic Target Shooting Events

Antwerp, Belgium, July 28.—The narksmanship title of the world is der at stake in the Olympic target shooting events beginning today at the Belgian army range at Camp Beverloo, about thirty miles from Antwerp.

Beverloo, about thirty miles from Antwerp.

The best army and civilian experts, with army rifles, pistols and carbines, drawn from all corners of the earth, are competing with their chosen weapons. One unusual feature of this target shooting is that the American rifle is represented by two teams—the American and the Belgian. The latter decided that the United States arm was the best in the world and secured permission from the war department at Washington to use it.

In addition to the American team, which has strong hopes of winning the meet, the following nations were registered to compete: Belgium, Brazil, Canada, Denmark, Spain, Finland, Holland, Great Britain, Italy, Norway, Portugal, South Africa, Sweden, Switzerland and Zecho-Slovakia.

The events will continue until August 4.

The individual matches for rifle, pistol and carbine are open to five competitors from each nation and the team events to teams of flve men, with two possible substitutes, with the exception of the team shooting 300 meters, with carbines or any other arm chosen, wherein the teams will include six men and three possible substitutes.

Lewis relieved Bacon in the third inning and held Elberton down to two hits by pitching masterful ball. Turk started off well for Elberton, but was hit at opportune times and was relieved by Alvaugh in the sixth. The game was slow and except for an occasional pretty piece of fielding was featureless. HAHN HERE THURSDAY

By JOE HATCHER.

Bernie Hahn, West Virginia's native son—contender for the bantamweight crown of the world-pulled into town last night for the final into town last night for the final polishing off before meeting local Sammy Morris in ten rounds to a decision at the Auditorium Thursday night. From present dope, than will enter the ring a favorite over the local mauler with chances of Morris putting over his well-known k. o. for a victory before the ten-round gong.

Hahn After Title.

Hahn is hot on Pete Herman's trail in an effort to get a crack at the championship belt, having won a popular newspaper decision over the bantam king at a previous date. In addition to good stands against the bantam ruler, Hahn has decisively walloped Ex-Champ Kid Williams, Pal Moore, oJe Lynch. Jabes White and Jack Wolfe. In addition to the above Bernie has met practically every good bantam around the circuit and has an enviable rep. for clean-cut wins over the top of the class. Hahn depends greatly on his speed and cleverness with both fista for the opponent's scalp. He carries a sleep-maker which he can use under proper provocation and may be capable of sticking one over Sammy Morris, jaw.

Morris' K. O. Punch. Hahn After Title.

capable of sticking one over Sammy Morris, jaw.

Morris' K. O. Punch.

Sammy tops the list of local bantams, having mastered Battling Barnett and Staley Meeghan in order in fast time. Barnett is the slugging type of hitter and during the early rounds had Sammy grogy and wobbly. Sammy revived and started a drive that eventually put Barnett out of the fight and into oblivion in these parts as a head-iliner. Sammy proved his wonderful ability to assimilate punishment by taking a terrific drubbing off Meeghan in the early rounds and coming back to put Meeghan out for the ten-count route. Morris carries the old haymaker in either paw and uses both to a great advantage on the infighting proposition. Sammy is easily the class of the local banties for the past year and should give Hahn some battle for the show Thursday night. Both are in great trim and both are predicting a decision before the ten-round limit.

Fast Bout Sure.

cision before the ten-round limit.

Fast Bout Sure.

The fact that the future of both fighters depends largely on the outcome will insure a great scrap for the supremacy. A defeat would mean that Hahn would losse his immediate chances for the crack at the title and would have to fight his way back to the top again. A win for Sammy would put him in position to demand a fat purse to meet some of the best bantles in the game. In fact a loss would about cause Sammy to have to move on to other parts to get fights and drop off the Atlanta screen as a headline attraction.

Bill Balley and Kid Lucas are trimmed for a knockout affair in the ten-round semi-windup. Both are slugging heavyweights with so-called fighting hearts. Balley holds the navy record and wears the title around on his right hand. K. O. Lucas has been a terror among the soldiers about the local camps and he should prove his worth against the navy battler.

Stumpy Sullivan and Eddle Leonard will follow the battle royal openar with a fast six-round exhibition.

U. S. RUNNERS WORKOUT ON BOARD SHIP

On Board U. S. S. Princess Matolka, July 27.—Perfect sailing weather today permitted the members of
the American Olympic team to settle down to their eleven-day training routine. A 70-yard cork sprint
track has been laid on the upper
deck and punching bag stands and
wrestling mats have been placed.
There is a canvas swimming tank
on the lower deck, but when filled
with sea water today it split under
the strain and will have to be repaired.

The sprinters practiced starts and
dashes in the forenoon, while the
distance runners circled the lower
deck many times this afternoon
under the eyes of their trainers.
The wrestlers, boxers, fencers, shot
putters and tug of war men worked
out under the direction of their respective coaches.

For the balance of the trip the
training calls for twice a day sessions when the weather is fair.

Two stowaways have been discovered aboard the transport. One
of them is John Norton, of Toledo,
who was also a stowaway on the
Finland when the American Olympic team sailed in 1912. At that
time he was made mascot of the
team on howers.

The navy athletes en route to

In line for pure Americanism and no temporizing with enemies of the government in any form, the following letter from Major Homer Watkins was read:

"Hon. Claude E. Landrum, Fairburn, Ga. Dear Landrum: I am in receipt of your letter of the 19th and desire to thank you for your invitation. On account of an important meeting in our city on that date, it will be utterly impossible for me to meet with you.

"Kindly remember me to all the service men present and particularly to Mesars, Freeman, Camp and Candler, whom I number amongst my very best friends.

"Say this to the boys: While you have received your discharge from the government you are still in the service of your country and the duties that He before you are no less important than those you were called upon to perform during the great war. The enemy lurks everywhere in our country and is waiting the best opportunity to strike at the very foundation of 'asr government. It behooves us all to-be on the alert and prepare to meet him whenever he should strike. During the next few years our government, a republican form of government in fact, will be on trial, and the ex-service men are in position to prove to the world that such a government can and must exist amongst the nations of the world. We must be unselfish and devoted to the interests of humanity. Yours sincerely.

THE HAYNES SPECIAL SPEEDSTER The Newest Haynes Creation

ANSWERING the demand for A aswift, snappy production— a truly individual car that fulfills the wishes of those no desire a creation that en podies the vibrant spirit of youth, a car that fairly breathes life and vigor and confident class—comes the new series Haynes Special Speedster.

Haynes engineers and designers are alive to the discriminating desires of those who are satisfied only with that which exemplifies the utmost distinction and excluthe utmost distinction and exclusiveness. In the new series Haynes Special Speedster, they have given expression in a new and beautiful way to the four essential factors of car-character which the Haynes has established—beauty, strength, power and comfort. The long, low rakish lines; the deep, leather seat for the two passengers; the individual fenders and steps; the unique windshield and top ventilator; the speedlines of the aluminum body—the low-swung chassis; the special compartments of the rear deck; the cord tires-all these give to the eye the promise which is more than realized when the car is swung into the roadway and given its head.

Production of the new series Haynes Special Speedster must perforce be limited. The importance of making an immediate reservation is emphasized.

October Cotton Declines Under Selling Pressure

Other Positions Maintain Advances, and Market Closes Firm With Prices Ranging From 10 Points Lower to 65 Higher.

ANGE IN NEW YORK COTTON

New York, July 28.—Selling presure in October contracts was a cature of the coetton market today, it forced the contract down to 32.15, r 35 points under last night's close, whereas some of the last positions maintained net advances throughout the entire session and were at ill, times relatively stronger than lotober, which suffered from liquisation by traders who had purchast the contract on a belief that it was in line to follow the example of March, May and July, all of which nonths developed big premiums. The market closed firm with prices of points lower to 65 net higher. There was a partial advance of 12 olnts in opening prices, and subsquent buying advanced December a 31.40 and March to 30.35, or 50 to 0 points over the night before. While covering orders accounted for good deal of this firmness in the ar distant months, there was also omestic and foreign trade demand stracted by the relative cheapness of these contracts.

Wall street and Western houses gain sold on the unsatisfactory surpean and domestic conditions and crop and weather news continued generally favorable, espectally the weekly weather report,

hich caused moderate selling at lidday. A southwestern spot cotn house issued a condition figure 75.5, against 71.1 last month, and to average of the private reports of ar issued it 75.4. Nothing ocurred in crop news to change the inion of the traders, the governent report will show a relatively gh condition figure. Nor was there by improvement in the cotton loads market or the mill situation. New England while some of the ternoon southern selling was attibuted to increased new crop ferings in the southwest.

SUMMARY OF WEATHER AND CROP
CONDITIONS FOR COTTON BELT FOR
WEEK REDING JULY 27.
Washington, July 28.—With temperatures averaging close to normal in some sections while heavy local rains and deficient sunshine prevailed in others, cotton growth was variable, but condition fairly astinfactory for the week ending July 27, according to the national weather, and crop bulletin made public today.

Cotton made very good to excellent growth during the week in South Carolina, western North Carolina, Georgia, Tennessee and most of Arkansas, Oklahoms and Texas, the bulletin said, while unfavorable weather slowed up growth in Florida, Alabama, parts of Mississippi and Louislans.

Frequent rains and lack of sunshine in these states, the report said, caused some shedding and increased weevil activity. The crop was reported to be boiling and fruiting well in South Carolina. Picking was rushed in the lower coast sections of Texas, where the crop was reported to be good to excellent and of very good quality.

The condition of the crop, at the close of the week, the bulletin continued, was "fairly statisfactory" in most of South Carolina and Georgia, and good to very good in most of Mississippi, Tennessee, Arkansas, Oklahoma and Texas. Late cotton in northwestern and southwestern Texas was reported to be in need of rain.

Very little disease or insect damage was reported from the northern portion of the celet.

Industrial conditions offered little encouragement to the constructive side, trade authorities' predicting further curtailment of production at leading steel and iron centers as a result of another unfavorable turn in the railroad labor situation.

The United States Steel report for the year's second quarter, issued after the close of yesterday's market, was disappointing to buillish interests and gossip continued to deal adversely with conditions in other important lines of industry, especially the motor and leather trades.

Exchange on London, Paris and Italian points extended its recent reactions, dealers reporting enforced selling of bills. Receipt of a small amount of gold from Canada at the subtreasury was announced, but reports of further imports from Europe lacked confirmation.

Popular bonds, inclding Liberty and international issues, were inclined to ease moderately on enlarged dealings. Total sales, par value, aggregated \$10,450,000.

Old United States bonds were unchanged on call.

Chicago, July 28.—Swift & Co.

New York, July 28.—The local market for raw sugar was quieter today and prices were unchanged at 15½ for Cubas, cost and freight, equal to 16.30 for centrifugal. There was a small sale of 3,000 bags of Cubas, the balance of a cargo to an export refiner at 15½ c, cost and freight, but to call refiners appeared to be out of the market for the time being. At the same time offerings were not aggressive and the undertone was steady.

There was nothing new in refined, with quotations ranging from 21.00 to 22.50 for fine granulated. The demand is still light, while meltings during the past week were quite heavy, amounting to 85,053 tons, including 20.514 tons received by trade interests It is said that some of the trefined sugar sold to European countries is being shipped back here again and resolt.

The market for sugar futres was fairly notive and prices were irregular. Opening quotations were 10 to 20 points lower under scattered selling by commission houses, but there seemed to be a fair demand from shorts, and trade interests and prices ralled, regaining all the early loss, only to again ease off near the close under increased offerings, with final quotations 10 to 15 points net lower, except November, which was 2 points net higher.

Constantinople, July 27.—(By the sociated Press.)—The Turkish ace delegation found itself unable proceed to Paris by way of Buest because of a railway strike. The delegation returned through the Bosphorus today on the way through the Mediterranean to Toulouse, and thence to Paris. The delay makes it impossible for them to arrive in time for the signature of the treaty Thursday.

Paris, July 28.—If the Turkish delegates are not detained on their journey from Constantinople and arrive in time, it is probable that the peace treaty with Turkey will be signed at Sevres tomorrow as planned. There is a possibility, dowever, that Greece may withhold are signature from the treaty for the present because of a controversy between the Greeks and Italians over the islands of the Dodocanese, in the Aegean.

Athens, July 27.—Greek military operations have been relatively bloodless, but successful, because of the rapidity of the Greek movements. They seem to appear at the right time and place with overwhelming forces, causing the morale of the Turks to break both in the Asia Minor and Tracian campaigns. Greek troops operating in Thrace today 50,000; those in the Asia Minor campaign, 90,000.

It is estimated there were as few as 100 casualties among the Turks and Greeks in Thrace but a few thousand have been reported in the Asia Minor campaign.

COURT CONTINUES

SUIT TO END WAR

Washington, July 28.—Because no demand had been made on Secretary of State Colby to promulgate the resolution ending the state of war with Germany before the filling of the suit for mandamus by Harry S. McCartney, a Chicage lawyer, Chief Justice McCoy, of the district supreme court, refused today to hear argument on the petition. The court continued the matter until tomorrow to let the petitioner decide whether he should make the formal demand on Mr. Colby and amend his petition to show that such a demand had been made, or have the petition dismissed as legally defective.

Thousands of persons stood for

hours on the streaming pavements to witness the ceremony, but all most of them saw was a forest of umbrellas. Mr. Root had a cordial eception from the large gathering in the hall and his speech of presentation was vigorously applauded and his declaration that in no great world emergency could Britain and America be on opposite sides.

The audience cheered Mr. Lloyd George when he rose to accept the statue in behalf of the British people. "Resolute in war, he was moderate in victory," was one of the premier's encomiums of Lincoln, in which the audience read present international significance.

Every tribute that Mr. Lloyd George gave to Lincoln was roundly applauded, particularly his remark that "this torn and bleeding the one best known to the Anglo- earth is calling today for the help Saxon world, are now revealed to the gaze of the multitudes that of Abraham Lincoln."

After the speeches, those on the platform moved off in a procession to Canning square for the unveiling ceremony. There Mr Root was the British people, was unveiled in a pouring rain this afternoon by the and after the American Boy Scouts presented to the Duke of Connaught band had played the British and American anthems, the Duke pulled which tributes to the martyrea the cord releasing the British and American flags covering the statue. Dayton, Ohio, July 28 .- Governor Cox will sharpty accept the chalenge of Senator Harding on the league of nations issue. No one talking with Cox on the subject could get any other idea but that he regarded the Harding proposal of a separate peace as abhorrent and any confusion in the working out of a new peace after months of dickering and bickering as impossible. The governor's attitude indIcates that the high spot in his acceptance speech will be a mili-tant reply to Harding on the league question. Harding Straddling Issues. When he came in his hair was rumpled from thought as he dictated, but he seemed glad for a moment's release from the task. He seated himself in a comfortable chair. He was wearing a dark suit with an invisible white stripe, lav-ender hose and he smoked a pipe. The first impression was that he was quietly confident of the outcome of the election. There is no question but that Cox thinks Harding has straddled the issues upon which the people generally want clearness. He indicated he would make the issues clear."

Cox on Reservations. While adhering to the idea that league of nations must be supported on grounds of moral obliga tion entered into by the United States, Cox unquestionably will no commit himself on the subject of reservations to a point where he could not meet the republican attiude, if he were elected. There will be nothing in his speech indicating that he will follow the unalterable course of President Wilson in driving through the covenant, but Healey Bldg. ne will take unquestionable issue with Harding on the idea of a sep-

arate peace with Germany. Cox will not be dominated by the white house in the campaign. His friends indicate that he will clearly show this before the campaign is

On the subject of a league, he is in the covenant Wilson brought the senate, if he is elected, there is little doubt but that he will work with the republicans to get through the best program possible, just so it doesn't involve a separate peace with Germany, or an entirely new agreement with the allies on the subject of an association of nations.

Apparently, there are some big questions upon which Cox is at yet undecided as to his attitude, for while the speech, as a whole, will be ready for the printer Saturday or Sunday, there will be a short addition that will not be ready until the day he speaks. day he speaks.

GRAND JURY PROBING STRIKE OF YARDMEN

Chicago, July 28.—Investigation of the recent strike of the Chicago Yardmen's association was begun today before a federal grand jury. About sixty witnesses subpoenaed by the government reported.

The investigation will be conducted by E. L. Humes, special assistant attorney general from Washington, and District Attorney Charles F. Clyne.

The present investigation, it is believed, is for the purpose of determining whether federal laws have been violated by the striking switchmen.

To serve our patrons well and make each service a stepping-stone towards their perfect confidence is the desire and constant endeavor of our organization.
